MFR Stakeholder list (2020)

The following list of local organizations were identified early in the process as stakeholders for the MFR review. In early 2020 (before the pandemic and work on a First Nation Memorandum of Understanding paused the process in 2021), representatives from this list were selected and interviewed based on broad representation from various industries and perspectives. Stakeholder interview feedback helped inform the key issues from different perspectives, and the subsequent framework and approach for the remainder of Round 1 public engagement.
